J., did not make quite as bad a showing; there the six employes of the government collected \$80.17 and their expense account was \$1,489.65, or \$18.55 expended for each dollar collected.

At Natchez, Miss., the amount collected was five dollars and the collector received \$500. This lonesome colored gentieman doubtless amused himself by sitting on the landing and watching the majestic Mississippi roll by, with an occasional spell at fishing to relieve the monotony. The New Hampshire republican politicians evidently were more powerful with the adminiatration, for they succeeded in em-balming six of their clansmen in office at Pertsmouth, who collected \$278.36, receiving \$3,645.81 for their laborious duties. There are a number of other ports that make returns of similar magnitude, which shows that our high protective tariff is an expensive luxury to the taxpayers, requiring expensive machinery at every spot a vessel for material. can land. Why are these so-called

THE TRUSTS ARE THE WHOLE PUSH IN THIS SCHOOL.

light in this attempt to mystify the and expanded. people of the United States and de-liberately, through the irresponsible mouths of a lot of trust paid spell-ioniers, make the republicans of the country believe their political aspirations are to be adopted by the men they are invited to elect to represent been in part attempted before but never openly advocated by the newspaper organs of the party "with the erene indorsement of the campaign

With what delight will the intellirent republican voter who is fortudeliberate attempt to deceive them, hang on the words of the orators who assure them that black is white How enthusiastic he will be for the ongressional candidate, who has pledged himself to a platform that is or the trust-paid spellbinder openly for the democrats. and jeer at their unfortunate repub-lican brethren and ask them: "Where the democrats really to do something

This will follow the injunction we beg to assure him again that the a circulation of air where the pack-

of being all things to all men. There is no occasion for surprise it the increasing apprehension of disnater in the congressional elections which is now manifested by republicans. This feeling of impending nishment is well founded. The reblican majority in the first seasion of the Fifty-seventh congress was utterly faithless to the people. It did everything which the trusts canted done. It left undone everything which the trusts wanted left undone. It was absolutely the servant of the trusts, betraying the people in order to serve the trusts. It must now answer to the people on its established record. Republican apprehension of approaching disaster to the party is well warranted by the party's record and by the temper of the American people, rightly aroused to a determination for the removal

of that party from control in the government.—St. Louis Republic. The republican leaders do not seem to appreciate the advantage of the democrate in this congressional contest over the tariff and the trusts. It is all the advantage of a square and honest campaign against monopoly on the one side and on the other a mere sham warfare concerning which neither the trusts nor the people are desired.—Philadelphia Record. The republican lenders do not

the interests of the republican party and toms and other officials saved? These for the election of a republican house of representatives."

# DO YOU FEEL BADLY

Do you feel tired, despondent, bilious or half sick. Do you have dizzy spells, headache, backache. Is your breath bad, digestion poor, are your bowels constipated. If you have any of these symptoms you stand in need of PRICKLY ASH BITTERS, the great blood purifier, system cleanser and regulator. This grand remedy BEGINS RIGHT by acting on the excretory organs-the kidneys and bowels, thereby getting rid of the accumulated impurities which have caused the trouble. After this has been accomplished the strengthening and restorative element in PRICKLY ASH BITTERS will continue the good work. It will gently urge the vital organs to a better and more complete performance of their duties, give them strength and tone and promote harmony of action throughout the body. When the system has been cleared of obstructions, the bowels regulated and the kidneys resume fully their office of purifying the blood, the general condition is immediately improved. Appetite and digestion are corrected, the eyes are brighter, the strength returns, the complexion loses that sallow muddy cast, giving place to a clear skin and ruddy glow. These are the signals of returning health, and they bring along that thrill and joy of living and interest in life's duties that only those in perfect health enjoy.
